

# Ceci nâ€™est pas un rapport annuel

This is not an annual report! Itâ€™s so much more!

23-04-18

Dit is de omschrijving

Weâ€™re proud to announce that our Annual Report 2017 is now available. Beyond facts and figures, youâ€™ll gain real insights into what and how we approach research, training, care and international cooperation.

Some highlights include:

- An update on how the Flemish government supports our outbreak research team
- An overview of our recently added short course that's teaching experts to use a new treatment regime for multidrug resistant tuberculosis
- A meeting with Joni and Tiffany on their way to Africa for a better understanding of our medical services – especially travel medicine
- A look at our partners in the South and our continued efforts towards 'Switching the Poles'
- ...And of course all our financial and other figures for 2017!
