Dit is de omschrijving

How efficient is ITM's international cooperation? Which capacities did we manage to strengthen at partner institutes? What is our impact on health in the countries we work in? And especially, where can we improve? Our DGD funded capacity strengthening programme (2017-2021) came to an end last year. Based on the OECD/DAC criteria for evaluation, a final assessment of the intervention was done. In this webinar the evaluators will present the findings and recommendations of the final evaluation.

The webinar takes place on Thursday 16/06 at 3.30pm.
