Dit is de omschrijving

In 2020 ITM commissioned Syspons to conduct a Social, Developmental and Professional Impact Evaluation of ITM's Educational Activities and Scholarship Programme. The evaluation focussed on ITM's Master courses, Short Courses, and Post-Graduate Courses between 2008 and 2019, as well as the respective DGD-funded scholarships. In addition, the PhD programme in the period between 2003 and 2019 was analysed, with a focus on the DGD-funded sandwich programme. The **evaluation's objective** was to generate insights into the social, developmental, and professional impact of ITM's educational and scholarship activities on alumni competencies, capacities, and networks, and help ITM gain an understanding of the mechanisms and conditions under which impact occurs.

In this webinar we present the results of the evaluation.

9.30-9.40: Introduction by Govert van Heusden, head of ITM education office

9.35-10.10: Presentation of results by Johanna Renz, senior consultant Syspons

10.10 – 10.30: Q&A
